

ENDOVENOUS LASER TREATMENT MASTERCLASS

25th March 2020
Queen Elizabeth Hospital
Birmingham, UK

1 day course with option of
Clinic observation 26th March 2020

6 CPD credits

in accordance with the CPD Scheme of the
Royal College of Radiologists.

Join us for our one day masterclass
in conjunction with Queen Elizabeth
Hospital Birmingham, which provides
a unique opportunity to observe live
endovenous procedures under local
anaesthetic in a clinical setting.

FOR:

- *Consultants, doctors & higher trainees,*
- *REDUCED rates for Vascular & theatre nurses, vascular technologists/scientists.*

The day covers:

- how the clinic is set up for treatment
- vein mapping using ultrasound
- catheter and laser insertion and positioning
- how local anaesthetic is administered
- additional procedures such as foam sclerotherapy

You will also obtain:

1. Your Laser safety core of competency training and certificate
2. Hands-on practice of ultrasound guidance using a phantom model
3. Knowledge and experience in ultrasound image optimisation
